

# POOL COMMAND

Automate and connect  
your pool !

You want a pool fully under control ? Replace your old manual pool pump timer by the POOL COMMAND module and let it manage automatically your installation. Make savings with a connected pool !

Thermo-Adaptative filtration  
(adapts the filtering time  
according to pool temperature)

Automated management of  
auxiliary equipments (salt  
chlorinator, pressure pool  
cleaner, heat pump, ...)

Lighting control /  
programming

Pool freeze protection  
(temperature sensor included)

Bluetooth® or LoRa™ /  
Internet version\*

Connection via iOS /  
Android App or MySolem  
web platform

\*Needs the addition of a LoRa gateway

# POOL COMMAND

No need anymore to go to your pool equipment room ! POOL COMMAND is an intelligent and connected automation module that manages filtration times, pool lighting, programming of usual pool equipments (pressure cleaner, heat pump, multi-way valve ...) to make your pool again a pleasure !

## AUTONOMOUS AND ECONOMICAL POOL

- Intelligent thermoregulated filtration
- Automated freeze protection
- Management, control and programming of auxiliaries (water treatment device, cleaner, heat pump ...)

## A BETTER CONTROL OF YOUR POOL

- Water treatment optimization
- History of operating data
- Temperature probe and cover position sensor

Your pool managed by a professional with the platform [pool.mysolem.com](http://pool.mysolem.com)

MYSOLEM POOL APP  
FREE MOBILE APP

## YOUR POOL ALWAYS CONNECTED

- Alerts and recommendations
- Connection via iOS and Android App
- Remote control via web platform (LoRa™ option)
- Automated online weather forecasts

Connect your POOL COMMAND to the LoRa™ LR-MB-POOL gateway and manage your pool remotely on [pool.mysolem.com](http://pool.mysolem.com)

LoRa™ is :

- A private local network
- Without subscription
- Low radio emissions
- Up to 800m of range

to control and monitor all your Solem Pool and Garden modules

### INSTALLATION

Power supply 230V-50Hz  
DIN rail mounting (3 modules)  
Compatibility: Mono and three phase pump  
Max Relay Power: 16A / 3500W  
Temperature: -10°C to 60°C

### CONNECTIVITY

LoRa™ radio range: up to 800m  
Bluetooth® range: 10m  
Bluetooth® Smart 4.0 Low Energy

### DIMENSIONS

Width: 5.4 cm (3 DIN modules)  
Height: 9 cm  
Depth: 6.3 cm  
Weight: 400g
